Coordinator the saver

The best way to introduce Coordinator is probably to introduce the problem it aims to solve.

- **Big ViewControllers(too many responsibilities)**
- **Improve reuse of views**
- **Implementation(navigation stack, data injection)**

Coordinator

Coordinator is a simple but yet powerful protocol.

```
10
11  protocol Coordinator {
12      func start()
13      
14  }
```
